TRAYAN STEFANOV

PROFILE

Self-taught full-stack developer with hands-on experience building and deploying web applications using the MERN stack and modern frontend frameworks. Skilled at turning ideas into scalable solutions, with strong problem-solving, teamwork, and leadership abilities gained through several years in management. Passionate about delivering clean, efficient code and continuously learning new technologies.

FREELANCE DEVELOPMENT WORK

Freelance - MasterMeats In Development (Sep 2025 - Present) Demo

- Developed a full-stack web application for a traditional Bulgarian meat delicacy company, enabling online ordering and internal production management.
 - Built secure user authentication (login/logout, JWT-based sessions) and order management system.
 - Designed an admin dashboard for creating and managing products.
 - Deployed responsive frontend for seamless user experience across devices.
 - Developed complete production stages management, stock input functionality, and an ingredient/end-product tracking system.
- Tech stack:
 - Backend: Node.js, Express.js, RESTful API, bcrypt
 - Frontend: HTML5, React.js, TailwindCSS + DaisyUI, Axios
 - Databases & Storage: MongoDB, Upstash, Cloudinary

Freelance - ItskovStroy July 2025 - October 2025 <https://itskovstroy.com/>

- Developed a custom web platform for a construction startup to showcase renovation projects and manage client services.
- Implemented API-driven project portfolio section, improving content management efficiency.
- Tech stack:
 - Backend: Node.js, Express.js, RESTful API, bcrypt
 - Frontend: HTML5, React.js, TailwindCSS + DaisyUI, Axios
 - Databases & Storage: MongoDB, Upstash, Cloudinary

Freelance - ProfitRecovery May 2025 - July 2025 <https://profitrecoverybg.eu>

- Designed and deployed a full-stack platform for a financial services client, enabling dynamic content management and user engagement.
- Delivered secure authentication and role-based access using bcrypt and RESTful APIs.
- Tech stack:
 - Backend: Node.js, Express.js, RESTful API, bcrypt
 - Frontend: HTML5, React.js, TailwindCSS + DaisyUI, Axios
 - Databases & Storage: MongoDB, Upstash, Cloudinary
